Funding a War Effort

Why the GCF is important for all

What would have happened if during the second World War the American people had been given the opportunity to support only the front that they were personally interested in? Perhaps some would have only wanted to only to support the soldiers in Japan, while others would have wanted their money to go to deal with the Italians. Meanwhile, the commanders at the Pentagon were planning a surprise attack on the German Forces occupying Normandy, France. Problem being, no one wants to support that. If the American military had to operate in that manner, World War II might have had a very different outcome.

That is not how a battle is fought and won. There must be cooperation and a pooling of resources that will make for an effective campaign. This is a fantastic picture of the importance of GCF giving in the C&MA. We are all part of an army that is fighting a war with stakes much higher than anything fought over in WW2. Your faithful and generous contributions to the GCF are what keeps over 800 servants of Christ fighting battles in 50 plus different countries. We want to encourage all of our partners to be sure you are giving regularly to the pool of resources that helps to keep so many on the battlefield. We believe that this is going to be the most effective way to do the most for the Kingdom of God. So thank you for your support and your partnership with us, and thank you for giving to the GCF, whether [online](#) or through your local C&MA church.

The Dream

And how you can make it come true!

We were walking down the street here in UB and stopped to buy gum or candy from one of the ladies who sit on every corner with their little box. They sell candy, a stick of gum, a cigarette and they have a phone available for use for approximately 50 cents. While we were standing there the phone rang...something that we had never heard happen. The person on the other end asked for Bernie Anderson. The lady asked if that was us and Bernie said yes. The call was hard to hear, so he hung up. It rang again. This time I could hear enough to recognized the caller's voice, so I insisted Bernie take the call. It was my sister-in-law, Laura. She was calling to tell us she had been in a meeting and had told one of the business men about our Community Center. He was so moved that he told her he wanted to be a part of that work. He handed her a check and when she left she looked at it and it was in the amount of \$7,000 which she would be forwarding to us soon. We were so excited. This would probably cover the costs of renovations. We wouldn't have to ask for money again. Then I woke up.

Sigh.

You have no idea how difficult this part of our life is for us. We have been greatly influenced by men like Hudson Taylor and George Mueller who never spoke of their needs to anyone but God. They were great men of faith and God provided for them and their ministries over and over again. Our hope is to be as fruitful and productive for God's kingdom as they were, therefore it is only natural to want to use their methods. Is it a lack of faith on our part that we seem to always be coming to you, our partners, with our hands out? Is it that the church today is not where it was 100 years ago, for whatever reason? Is God wanting to deal with our pride, therefore we again humble ourselves to seek your help? Is it all of these or none of them? Does it matter why?

Perhaps what really matters is that we know that you are out there, partnering with us in so many ways, so that in the meantime we will leave the "whys" to God. You are holding our ropes by praying for us day after day. You are giving sacrificially as God puts our needs on your heart. For that we are grateful and honored and look for the day when together we watch Mongolians bow before the throne of our worthy God.

If you are receiving this communique you should have received our previous two newsletters telling you of the direction our ministry is taking. You should know by now that we are in the process of renting a storefront to launch a ministry to reach students for Christ and to train and equip them to be workers in the harvest. We sincerely hope that you are already praying with us and for us to this end.

Now we come, with our hands out again, asking you to ask God if He would have a part for you to play in the renovation of this center. We are including in this a list of tangible ways you can do this. We have broken down the costs per room of what it will take to bring turn these four rooms into a place of ministry. When you look at the overall cost, it can be overwhelming, and as a result, to think there isn't anything you can do. But when it is broken down into bite-size pieces, it becomes plausible.

Thank you for taking the time to read this and to prayerfully consider the following list of needs.
